VOLUME II No. 39

Wednesday, July 23, 1980

They're known as River Rats and each year they complete a migration from Rotary Park to Gull Lake. This is the fourth year for the excursion which has become a tradition for these twenty youths. The group is seen here as they float past Minden Village on their way to a downstream destination.

Cottagers support liming proposal

Haliburton County Council has found support, albeit belated, for its May resolution calling on the Ontario government to undertake an experimental program of liming lakes in the Highlands.

The support was contained in a resolution passed at the annual meeting of the Mountain Lake Property Owners' Association held earlier this month.

(The county council, coming under pressure from a number of sources, including members of the council, withdrew the resolution at the June meeting.)

The association resolution points out that the prospect is increasing of Haliburton lakes dying because of heightened acidity, and that the economic well-being of the area is dependent on tourism. The association stated that it supported the proposals from the Haliburton County Anti-Pollution Committee for an experiment liming project and urged the

county council to support it as well.

In a covering letter to the county council the association applauded the council for its initiative in considering the experimental lake liming project.

"We urge you (county council) to study the proposal further and not be deflected by bureaucratic stalling by the Ministry of Natural Resources. Get scientific opinion from other sources as well. There is considerable merit in the proposal to have an experiment tried and evaluated before the lakes become too far gone," the letter to the council stated.

The association, which has been actively concerned in the past with the impact of acidified precipitation on area lakes, also sent letters to Ontario Premier William Davis, Prime Minister Pierre Trudeau and U.S. President Jimmy Carter seeking their intervention in the acid rain problem.

\$400 deposit required for shore closing in Lutterworth Township

Lutterworth Township council has decided to ask for a \$400 deposit before accepting any application to close and sell shore allowances to the adjacent landowner. The policy was adopted at the July 17 meeting.

According to Reeve Ron Gambell, the deposit would ensure that the property owner intended to go through with the purchase of the shoreline. "We don't want to be tramping all over the township only to find an applicant has decided to withdraw his request," the reeve commented. He told the meeting that the members of the council have agreed to an

on-site inspection before approving any application.

The \$400 will be used to cover expenses incurred by the township in closing and selling the property. The deposit does not include the \$250 basic selling price which has been agreed to by the county council for a standard sized lot.

Councillor Bill Valentine noted that if the amount of money the township is holding exceeds the cost of processing an application, the money could be refunded.

Deputy Reeve Glyn Lewis asked how much of a deposit would be required in the case of an application being

received from a number of adjacent property owners. He noted that indications are that group closing would be less expensive because of the reduced cost for surveys, advertising and other details.

The consensus of the council was to leave the deposit amount at \$400 per property owner, in an effort to ensure that all those involved were serious about their application.

According to the clerk-treasurer, Wayne Hughes, some 26 applications have been received at the township office and many other ratepayers have sought information.

The councillors indicated they would be following the

guidelines set down in an agreement reached by county council.

Adding a new wrinkle to the entire question of closing lakefront shore allowance, Reeve Ron Gambell wondered what would happen if a landowner decided to purchase just the middle portion of a shore allowance in front of his property. Councillor Bill Valentine said, "It would create a horrible mess."

The council agreed that any applicant wishing to acquire the shore allowance would have to apply for all of it.

Standard application forms and an information package is being prepared by the township for distribution in response to requests from ratepayers.

Stanhope shore policy is coming

Stanhope Township council held a special meeting last Wednesday to discuss the policy of closing the 66 foot shore allowance that encircles many lakes in the area.

Stanhope's lawyer, Jim Cruikshank was on hand to discuss and explain the process cottagers and other owners must go through to purchase the 66 foot shore allowance.

The need for clarification and a complete understanding of the situation came after the application by a Maple Lake cottager to buy his shore allowance. Stanhope council

agreed in principle to close that particular allowance to vehicular traffic but further steps must now be taken and that is what Cruikshank was outlining.

Cruikshank attended a meeting on May 7 to discuss this same question but at that point, no definite county-wide policy had been set. However, one has now been adopted in principle and some people will be attempting to put the policy to the test.

The most important thing that Cruikshank emphasized to council last week is that an applicant for purchase of the shore allowance must obtain a survey and that it must be done by a surveyor and not guesswork and sketching by the applicant.

A survey will determine the exact boundaries of the applicant's property and will establish definitely the shore allowance perimeters.

The procedure for closure and sale of the shore allowance is long and can be tedious. The steps council discussed however are not final, because decisions were made to amend some of them. Awkward wording or an unclear meaning of terms were the main reasons for the amendments.

When contacted on Tuesday, Stanhope clerk-treasurer Gerald Bain said he had not yet received the amended copy of the policy.

When finalized, this policy will be the base which Stanhope council will use when a person from the township applies for purchase of their shore allowance.

Open house at MOE labs this weekend

The acid rain field laboratory near Dorset will open its doors to cottagers and permanent residents as Environment Ontario holds an information exposition for the Muskoka/Haliburton district Saturday and Sunday, July 26 and 27, from 12:00 noon to 8:00 p.m.

The open house is organized to give the public a chance to see the research program in operation and discuss the acid rain problem with Ministry technical experts and scientists who can explain details in layman's language.

Specialists with the Acid Precipitation in Ontario Study team, air, water and laboratory staff, will provide first-hand information, walk-through tours of the operation and demonstrations of scientific equipment used to sample and analyze acidity and other parameters.

Representatives from the Ministry of Natural Resources will also be on hand to discuss the impact of acid rain on sport fishing.

The research facility, located at Paint Lake Road one mile west of Dorset, operates out of temporary laboratory-trailers to study the impact of acid rain on vulnerable lakes and rivers in this district.

Request sign removal

Cottagers on Denna Lake in Lutterworth Township would like to become a little less well known.

In a petition to the township council, read at the July 17 meeting, the cottagers requested that a sign on Highway 121 indicating the road to their lake, be removed. Those signing the document expressed concern

that the present sign, indicating the road led to a lake, feel it is an invitation to thieves and vandals.

According to the cottagers, the area has been the target of a number of break-ins since the sign was first erected.

They would like the present sign replaced by one that simply indicates the concession number of the road. They also request that council erect a "No Exit" or

similar sign at the start of the road to dissuade users from travelling the route.

It was noted at the council meeting that the Denna Lake sign is the responsibility of the Ministry of Transportation and Communications, but the

Boat gets away from driver

A boater on Little Kennis Lake narrowly escaped serious injury last Tuesday morning, (July 15).

A 22 year old Oshawa man was operating the power boat when he moved to the rear of the craft to replace a drain plug. While at the stern of the boat, the man fell overboard

and the craft, which was in gear, continued to move, travelling in a tight circle.

The boat continued in its circular path and eventually came close to the man in the water. He grabbed the front of the craft and was able to hold

South Water Street and Highway 35

Highway disappears under 8' of water

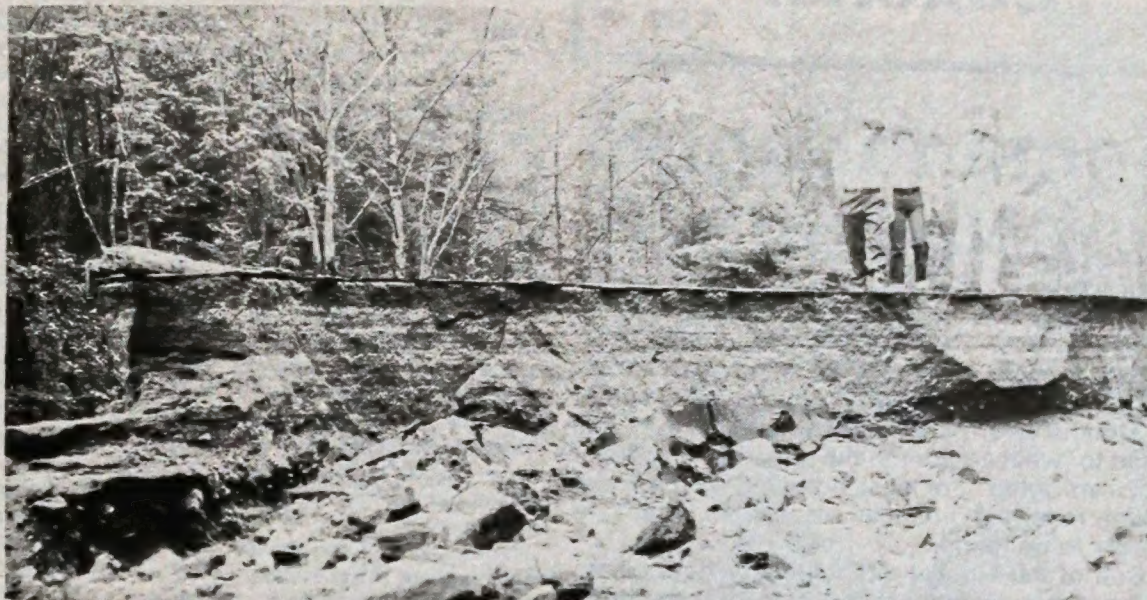

Approximately 100 feet of Highway 503 disappeared in the early hours of Monday morning.

Following a heavy downpour, it is believed that a beaver dam gave way sending a torrent of water across the road. Another 1000 feet of the highway was damaged by the flood. According to police at one point the water was eight feet deep over the roadway.

The washout is responsible for an accident on the highway at 1:30 a.m. Deborah Dahlke, 18, of Harcourt, was travelling east when her car entered the eroded portion of the highway. The force of the water moving through the washout carried the vehicle 500 feet down the north ditch. The driver and passengers suffered minor injuries and were taken to Haliburton Red Cross Hospital for treatment.

The highway was closed for most of Monday morning to allow the MTC to complete repairs east of Gooderham.

Corporal Ron Foran, and Constables Al Barnes and Reg Eveligh investigated the accident and patrolled the washout until repairs could be completed.

Hustlers top league

Clinching their hold on the top of the Tri-County Baseball League, the Minden Rockcliffe Hustlers downed Bobcaygeon last Wednesday evening. The 5-4 victory ensured the local squad of first place in the league.

The win came after a nine inning struggle with their hosts. The Hustlers now have a 14-3 record on the season.

The winning pitcher in the Wednesday game was Craig Stamp.

The Hustlers played in

Woodville last night (Tuesday), too late for a report in this edition.

Since Fenelon Falls has withdrawn from the league game scheduled for tonight (Wednesday) at the Minden diamond has been cancelled. The next game for the Minden nine will be July 30 when they play host to the Lindsay Seniors.

Some thoughts on November

Ever thought of running for municipal office?

The idea, we know, has crossed the minds of many ratepayers, particularly when the talk gets around to "what a poor job the present members of council are doing". For most, however, when the last day for receiving nominations arrives, they are nowhere to be found.

One of the biggest difficulties for newcomers seeking municipal office to overcome is the attitude that those who currently hold office have all the experience. The present members of the council can be seen as "doers" on the stage of political action. Those outside the council, who seek a position seat at the table, are often perceived as being inexperienced upstarts.

While a great deal can be said for experience as a teacher, and there is a great deal to learn about the operations of a municipality, it certainly shouldn't be the only criteria by which we judge those who seek municipal office. Fresh ideas and a new approach to old problems may be just what a municipal council needs to get it going again.

But, for those who do not find themselves at the council table now, we offer the following suggestion. If they are at all serious about running for office, they should begin learning the ropes now by regularly attending council meetings. It is here they will gain an understanding of the current problems facing the municipality and the actions being taken to solve them.

They should press those currently in power for answers to details they do not understand and seek out the heads of municipal departments for explanations where they would be of value.

A citizen who is willing to offer his or her services to the municipality for a two year term, should be just as willing to spend the several months between now and November learning the job.

Each year at this time we hear rumblings from property owner associations of various lakes. They would like to see a candidate "representing their point of view" on the local municipal council.

While in theory the idea sounds excellent, the practical aspect of electing a non-resident ratepayer to the municipal council may in the end prove detrimental to the municipality as a whole. Serving on council is no easy task. In addition to the regular monthly or bi-monthly meetings, there are committee meetings, discussions with ratepayers and information sessions.

This is not a job, nor a schedule for a commuter. The demands on one's time as a member of a township council dictates that, whoever offers to fill the post, should be willing to be available in the municipality seven days a week.

It should also be pointed out that managing the affairs of a municipality means taking an interest in all aspects of the township, not just those which directly affect the geographical or other interests of the individual.

We're sure a successful candidate who claims to represent the cottagers in a municipality would be welcomed on local councils, but the person who stands for election on that basis should be willing to make a total commitment to all aspects of the municipality.

Finally, while municipal politics in Ontario is no longer a male preserve, such does not appear to be the case in Haliburton County. It would certainly be refreshing to see more of the female members of our community seeking office in the upcoming elections.

Summer Festival
July 30 and 31

Letters Letters Letters Letters

Editor:

I am a student hired through the Haliburton County Home Support Services in co-operation with the Ministry of Culture and Recreation on an Experience 80 program. My job is to update the Directory of Community Services.

The directory will be compiled to facilitate reference to the major services in the fields of health, welfare, recreation and education. I hope that the directory will prove useful, to both, the general public and all organizations.

I am quite concerned though, about the possibility that I may accidentally omit a service or organization. So, if your readers would like to have their groups listed and have not yet been in contact with me, please call within the next few days. My number is 457-2941.

Also, due to the limited amount of money available for printing, a minimum number of directories will be published, so if anyone would like a copy, please call me at the above number between the hours of 9:00 a.m. and 4:30 p.m.

Sandra Wootton,
Haliburton.

Editor:

The article in last week's paper suggesting that the Haliburton Highlands Guild of Fine Arts is not serving the entire county, specifically the Minden area, was a most unfortunate one.

The Guild does in fact serve the entire county, including Minden. We attempt to represent all the communities on our Board of Directors. Currently, 6 of our directors are from the Minden area; the intent is to ensure input from Minden.

We have actively participated in Minden activities, including Winter Carnival, the County Fair, Choral Society performances and the upcoming Pioneer Days Festival. Many Minden artists and craftsmen, both professional and amateur, have exhibited and sold their works to the Gallery and have benefitted from the shows and lectures given there.

The scholarships we offer each year have benefitted many Minden area children. However, the Guild does not offer scholarship courses either in Minden or Haliburton. Perhaps we have been confused with the Haliburton School of Fine Arts, the northern campus of Sir Sandford Fleming College.

We do have county wide support as shown by our membership and the financial support awarded to us by County Council. We would like to continue to provide our services throughout the county. We would like to have more programmes and exhibitions in Minden. But remember, the Guild is volunteer organization and we depend on people from all communities to carry out all of the programmes we offer.

If more Minden people would help us as volunteers we could more easily have successful exhibitions, concerts, etc. in Minden. Along this line, we wrote a letter to Minden Council

hoping to encourage this kind of participation, however, no suitable facilities could be found.

We feel it is rather awkward to have to reply to last week's accusation in such a public manner without being negative. We will be going to Minden Council next week so that any misunderstandings can be cleared up.

Let's hope for a positive outcome - namely more direct communication and better public relations throughout this County.

Mary Wallace, President,
Haliburton Highlands Guild of Fine Arts,
R.R. 1, Minden.

Editor:

It is somewhat disheartening to read the remarks attributed to Councillor Brandon with regard to the Haliburton Highlands Guild of Fine Arts. It is unfortunate that Councillor Brandon has not taken the time to examine what the H.H.G.F.A. has accomplished in the Minden area.

To list a few, they are:

1) The Guild Choral Society, which consists of members from throughout the county, has performed in Minden and the surrounding area many times.

2) Participated in the Haliburton County Fair which is held in Minden, also for a number of years participated in the Minden Winter Carnival.

It should be pointed out that the Scholarship Fund does benefit and encourage art appreciation for school age children in all municipalities within the county, including the Townships of Anson, Hindon & Minden.

The Summer Exhibition and Sale is held in the area which is most central so that all residents and tourists can take advantage of it with minimal travel, plus the fact that, with regard to the facility offered, the price is right.

We would welcome a facility at a reasonable price which offers adequate size, suitable acoustics and a grand piano to allow quality concerts to be performed in the Minden area. Until this year, Minden and Haliburton residents alike have had to drive to Bancroft to enjoy a concert of this calibre.

Our present executive consists of 6 members from the Minden area who have expended much time and effort in trying to provide courses and entertainment in the Minden area.

Possibly Councillor Brandon would like to lend his support to these 6 members in order that facilities can be expanded in this area.

Donna I. Monk,
Vice-president,
Haliburton Highlands Guild of Fine Arts,
Minden, Ont.

Editor:

In response to your article of July 16 concerning the art scholarship appeal letter and the scope of the work of the Haliburton Highlands Guild of Fine Arts, I should like to offer the following information.

Each year all children in our county schools are given the opportunity to receive a

scholarship which entitles them to a course in the summer in the area of their choice. These courses cost from \$20 to \$40 each and include the necessary supplies (paints, brushes, etc.)

The money for these courses is raised in three ways:

1) 2/3 of the previous year's door receipts at the annual July sale.

2) 1 money-raising event during the year run by the Guild - i.e. auction show. This year the money was raised through receipts at the Toy and Doll Show.

3) Contributions made by individuals, service groups, business people, and municipalities. These contributions are solicited by letters of appeal. Approximately 200 letters are sent throughout all the County.

The courses are held at the School of Fine Arts which is operated by Sir Sandford Fleming College at the campus in Haliburton. The courses are well-attended by our children and the response by the parents makes travelling to Haliburton possible. We have had as many as 58 scholarship winners in a year.

The parents, teachers, Guild members and contributors feel this is an important aspect of community involvement for our young people. We hope to continue to encourage these young people throughout the County to develop their talent and skill.

Ruth Gorrie,
Chairman, Children's Art Scholarship Committee,
Haliburton Highlands Guild of Fine Arts.

Editor's note: During the graduation ceremonies at Archie Stouffer Elementary School in Minden, 13 students received scholarships. The names of those receiving those awards were listed in the paper at that time. The above writer has made us aware of the following recipients of the scholarships in county elementary schools:

Gooderham School: Karen Madill, John Paul Detlor.
Cardiff School: Laura Hogan, John Lockwood.
Victoria St. School: Kelly Cowen, Danielle Larue, Alison Sisson, Corey Davis,

Ursula Beachli, Donald Bint, Jason Morissette, Kelly Youngdale, Jody Bannister, Duane MacInnes, Dean Fyfe.

Haliburton Sr. Elementary School: Beth Burton, Lucy Postlethwaite, Sherry Sawyer, Barb Taylor, Angela Halnas, Donna Stamp, Yvonne Thompson, Eoin Ross, Gina Brohm, Chris Harrison, Kirk Thayer.

Editor:

In regards to the remarks made by Councillor Stuart Brandon at the last council meeting, he said, "...they have never done anything here. They do not hold courses here and they never have held their summer exhibition and sale in Minden. Why don't they run courses for children in this community or have their sale here?"

There have been courses held in Minden United Church, both Minden and Carnarvon schools, the Hyland Crest and at the Carnival in the municipal building.

Possibly Mr. Brandon isn't aware of what is taking place in his own area, therefore I would like to bring a few things to his attention.

The Guild includes members from Minden, Carnarvon, West Guilford, Maple Lake, Haliburton, Ingoldsby, Eagle Lake, Lochlin, Hall's Lake and Kennis Lake.

In his comments, Mr. Brandon mentioned that the Guild has never done anything in Minden. He must also be referring to the Haliburton Highlands Choral Society. They have sung in many places including Carnarvon, West Guilford, Haliburton Senior Elementary and High Schools, Extencare in Haliburton, Hyland Crest and the Anglican Church, both in Minden.

The choir have permission to use the Gallery, both Senior Elementary and High Schools in Haliburton free of charge. In addition, both schools are large enough to hold a large number of people for the concerts.

Perhaps the Guild has not been approached to participate in Minden.

As choir members, we have

Home on the (Kinmount) range

Seen from a distance, the animals look like ordinary cattle. There are several of different colour, some bearing the distinctive black and white markings of a Holstein.

However, as we got closer to the small group of 14 animals, and as owner Wally Stender pointed out the various features, we were able to distinguish the physical differences that separated this herd from others for miles around.

Several animals showed a stronger, heavier chest, some had a slight hump on their backs and on others the fur was thick and in places curly. The signs of their ancestry... these animals are a cross between cattle and buffalo.

Known in the trade as beefalo, these hardy animals are gaining in popularity across the country. And there is certainly no doubt in the mind of Wally Stender that these are the animals for him.

He spoke enthusiastically about the 14 head of beefalo which he recently received from the Agriculture Canada quarantine compounds in Ottawa. The beefalo were imported from the United States and had to undergo rigorous inspection before being allowed into the country.

Wally's interest in the still rare breed stretches back a number of years and actually began with a desire to own a herd of buffalo. "I told my sons," he commented as he pointed out the window at his pasture several miles south of Kinmount, "that one day they would see buffalo out there." However, the more Wally explored the possibility of acquiring a herd of buffalo, the more discouraged he became. Buffalo are large animals which require extra heavy fencing. If they get loose, they are hard to round up and, while they may have all the hardiness nature could breed into them, they turned out to be just not the animal Wally was looking for.

As he carried out his research in to buffalo herds, Wally came across an article in The Mother Earth News about beefalo. A short while later he saw an advertisement in Harrowsmith which led him to more information on the breed. In the researching which followed, Wally

became convinced that beefalo was the animal for him.

"The animals have the hardiness that the wild buffalo are famous for," he pointed out, "but are as gentle and easy to manage as regular cattle." He notes they can be held by normal fencing and require little or no care from day to day.

"There was a time when buffalo roamed over the entire prairie region of North America. In that time the animals endured the freezing cold temperatures of winter, the scorching heat of summer. There were times when there wasn't any water or when the snow was so deep it was a struggle to find feed. These animals had no one to tend them, to provide them with water or feed, and yet they survived, until they were almost wiped out by civilization."

It is these hardy characteristics which the beefalo strain has inherited from their noble ancestors. According to Wally, tests have shown that beefalo, when given a choice between hay and grain, will opt for the former.

"That is the way they were raised," he comments, referring to the buffalo background. "Not only that, they will take that hay and convert it more efficiently to meat than an ordinary cow." This feed conversion rate is an important factor when considering the raising of animals for their meat.

The animals prefer to forage for their own food throughout the year. "I heard of one instance," Wally reports, "where a farmer feeling it was too cold for a beefalo cow and her young calf during the winter, placed them in a barn. By the morning these animals were sweating and irritable. They wanted to be outside, no matter what the temperature."

According to the American Beefalo Association, of which Wally is now a member, studies have shown that when ordinary cattle may stop foraging when temperatures dip below minus 20 degrees, the beefalo will continue to look for food even as the temperature nears 40 below.

One reason for their hardiness in winter weather is

the fact that their hide generally contains three times more hair per square inch than that found on ordinary cattle. The hair is also longer which adds to the protection.

The animals apparently have little problem dealing with high temperatures as well. Many U.S. beefalo herds are found in the southern states.

Beefalo is still a relatively new branch of agriculture and one that many traditional livestock farmers tend to ignore. However, indications are that a beefalo cow will live to at least 30 years of age and continue to bear offspring until age 25. "At this point this is just conjecture," Wally said, "it is such a new area that we just aren't sure how long a beefalo will live."

If the animals have one drawback, which Wally will admit to, it is reproduction. The beefalo must be bred artificially to ensure the proper balance between buffalo and beef is maintained. But owners have reported that the animals may have to be bred on several occasions before it is successful.

The key to raising a fertile beefalo strain is ensuring the buffalo portion remains at 3/8 of the total animal. "A fullblooded beefalo is considered to be one that has the 3/8 buffalo" Wally pointed out. "It doesn't matter where the other 5/8 comes from, although it is obvious breeders are looking for traits in bovine breeds which will complement those of the buffalo." An example of a beefalo mix is 3/8 bison, 3/8 Angus and 1/4 Hereford.

Lonely

The raising of beefalo is still a lonely proposition at this time. The nearest herds in Ontario are in Barrie and Ottawa. All of those raising beefalo in the province belong to the Ontario Chapter of the American Beefalo Association. They keep in touch with each other through their newsletter from the U.S. entitled the Beefalo Nickel.

The Ontario Chapter was recently formed and Wally was selected to serve as its vice president.

He estimates that there is only 300 to 400 head of beefalo in Ontario at the present time and perhaps

10,000 registered animals in the United States.

"There has been some interest in the breed from the Philippines and Europe," Wally commented. But at the moment those involved with beefalo are striving to build up the size of the herd.

Ultimately, the breeders hope to have a large enough herd that they can begin selling animals for meat consumption. "Beefalo is similar to beef," Wally states, "except there is a lower amount of fat in the meat. It is juicier and sweeter than beef. It has its own distinct flavour."

There are some restaurants in the United States which feature beefalo on their menu, but due to the limited number of animals available for slaughter and the concentrated effort to build the herd, no concerted attempts are being made to market beefalo meat.

Interestingly, tests carried out on beefalo hamburger showed it to have 4% more protein, 21% less fat, two and a half times less calories and significantly lower amounts of cholesterol than ground beef. These figures, combined with the hardiness and food conversion ability of the beefalo, could make it an important source of meat for North Americans in the years to come.

The herd returns

For those people who maintain that history repeats itself, the beefalo herd at Wally Stender's farm may indeed be a good example of that axiom.

It was in Victoria County, several miles south of Wally's in Bobcaygeon, that the first attempts to create a beef-bison cross were begun. Records show that a Mossom Boyd carried out experiments at the early part of this century, using bison and beef in an attempt to raise a unique breed of animal.

His experiments met with limited success when many of the offspring, which he called cattalo, proved to be barren or infertile. However, his work created an interest in scientists in the federal government and in 1910 the Department of Agriculture purchased Boyd's entire herd and shipped them to western Canada for more testing.

Wally Stender has completed an historical cycle. He has brought the beefalo back to the area where, eighty years ago, Mossom Boyd attempted to cross a bison and bovine. Boyd's efforts were unsuccessful, but now a herd of 14 beefalo roam the Stender farm just south of Kinmount.

The government scientists were unsuccessful as well. They were simply unable to produce a strain of fertile bulls, and so in 1955 the experiments were abandoned.

Five years later an American citizen struck on

the right combination. While Boyd and the federal government scientists had been experimenting with strains which were half, quarter and eighth bison, the farmer in the United States decided to use an untried combination, 3/8.

"That fellow struck it right," Wally said, "He hit the

combination that everyone else had ignored or been unwilling to try. From his success 20 years ago has emerged the growing beefalo industry in North America."

So in many ways it is prophetic that while some of the earliest attempts at creating a fertile bovine-bison cross took place in this area years ago, a well established and growing herd now exists.

For those who wish to get a closer look at a beefalo and talk to Wally about the breed, he has indicated he plans to have a few animals on display at the Kinmount Fall Fair later this summer.

Beefalo come in all colour combinations, depending on their ancestry. The animal at the back shows obvious Holstein background. The key to keeping a fertile herd is keeping the recommended 3/8 bison--5/8 bovine ratio. Note the heavier chest and shoulders on the animals. The curly thicker hair also indicates their buffalo ancestry.

As the ribbon falls away from the scissors, Anson, Hindon and Minden Reeve Sinclair Nesbitt declares the Minden Red and White Foodmaster open. The official opening of the new store on Highway 35 at South Water Street, took place Wednesday morning. Seen with the reeve are store owner Mike Easton, left, and store manager Bill Kulas, right. A crowd of eager shoppers await in the background to take advantage of the many opening day specials.

Woman charged after writing phony prescriptions

A 33 year old Etobicoke woman faces six charges of forgery and four of uttering a forged document following an investigation in Haliburton Village.

Eve Kai Edward, 33, was charged after attempts were made to secure restricted narcotic drugs from the two pharmacies in Haliburton.

According to the police, the accused had taken a prescription pad from a doctor's office in Toronto. The person who filled out the blank forms was apparently knowledgeable about the proper procedure as the forms were presented and accepted on a number of occasions.

An investigation was carried out when the name of one of the doctors used did not appear in a registry at one of the Haliburton pharmacies.

The phony prescriptions

were used in mid May, twice in June and three times in July.

Constable Wim Magee investigated the incident.

Runaway boat

(from page one)

on for a short time before he fell back into the water.

A police spokesman noted that the attempt to grab the boat from the water was a very dangerous manoeuvre as the craft could have passed over the man, with the spinning propeller causing serious injury. The man was equally lucky when forced to let go of the boat that he was not injured by the motor.

The boat moved closer to shore and, if it had not run out of gasoline, probably would have struck a dock.

The incident was investigated by Constable Boyd Jarvis.

Letters

(from page 4)

always been available to sing when asked.

Perhaps if Mr. Brandon could suggest a facility large enough to accommodate a concert, at a reasonable cost, in Minden and provide the use of a piano in good condition we would be only too glad to have it in Minden.

Several members of the choir including members who live in Minden Township are: Helen Cox, Jim Milne, Ollie Rome, Ruth Pogue, Gerhard Bieske, Geraldine and Gerry Feltham, Ruth McBrien, Donna Joweth, Murry Burton, Barbara Trocewicz, Laura Carnegie, Al Rawlins, Chris Archer, Mildred Sproat, Bert Allan, Jean Henderson, Fran and Les Clark, Glenna Beckham, Eva Stata, Jackie Banks, Catherine Kellet, Shirley and Jack Hill, Elen Holden and Lorna Roland.

Editor:

I would greatly appreciate your putting an announcement in The Times concerning the S.F. Stinson Memorial Canoe Race.

This year the race will be held on Wednesday, July 30 at 6:30 p.m.

The race starts from the Rotary Park and ends at the Minden bridge.

Canoes must be 16 feet long, canvas covered or fibreglass. Racing shell type canoes will not be allowed. This restriction includes modified canoes of the type used by previous winners.

Entries from summer

campers are restricted to 2 entries per camp.

The race is a downstream course in which practice can give the competitor great advantage if he can learn to utilize the currents in the river. The race is similar to that held in pioneer days and commemorates the memory of S.F. Stinson who owned and operated the saw mill and grist mill where the Orillia Power Dam is now located.

There will be a separate start for previous winners and a special award for "campers".

Police investigated a collision at the intersection of St. Germaine and Prince Streets shortly before 1 p.m. last Wednesday. Beulah Stribling, 35, of Minden was travelling west on Prince Street when she braked, lost control and struck a car owned by William J. Robinson, 50, of Richmond Hill. The Robinson car was stopped at the stop sign on St. Germaine Street. Damage to the Stribling vehicle, seen in the background, was estimated at \$1700 while \$1500 damage was done to the Robinson car. Constable Mike Smith of Minden OPP investigated the mishap.

Permit values increase

The value of this year's permits has been estimated at \$459,437. Last year the total was \$447,445.

Both the by-law enforcement officer and the members of the council expressed satisfaction with these figures. They felt the increased building activity was a promising sign for the future of the township.

Fox said there had been a number of inquiries in the past few weeks and that he expected to issue more permits before the end of the building season this year.

Driver charged

A 19 year old Scarborough man has been charged with careless driving after the car he was driving went into the ditch July 19.

Brian Collingwood suffered a minor injury in the accident.

Collingwood was travelling east on County Road 12, near Dorset when he lost control on a curve, went into the ditch and struck an earth embankment.

\$2500 damage was done to Collingwood's 1974 car.

Constable Reg Eveligh investigated the mishap.

Camp road collision

Fifteen hundred dollars damage was done to a 1976 car and \$400 damage was done to a 1968 station wagon in a weekend collision.

Rodney Thurston, 17, of Haliburton was driving north on a private road at Camp Northland and Darryl Sheriff, 23, of Toronto was driving south when they collided on a curve.

Constable Al Bibby investigated and reported the time of the accident was 4:30 p.m. on July 19.

Water tomatoes regularly

As soon as green tomatoes are hanging on the vine, you may think they've survived the growing season, but there is one culprit that can still spoil the fruit - blossom end rot.

You will recognize blossom end rot by a tiny black spot at the bottom end of the green tomato. This spot will spread and eventually consume up to half of the tomato. The fruit will become soft and mushy on the inside and shiny black on the outside.

"A fruit infected by blossom end rot is inedible," says Bob Fleming, Ontario Ministry of Agriculture and Food horticulturist. "Once the disease has started, it is impossible to save the tomato. But there are usually one or two tomatoes in a cluster of infected fruit that remain untouched."

"Blossom end rot is caused by moisture stress in the plants," says Mr. Fleming. "There is either too much moisture or not enough. In our area, there is usually not enough."

Control the disease by watering thoroughly once or twice a week, depending on the weather conditions. Try to keep the soil moist, and water plants deeply, so all roots are exposed to an adequate water supply. A mulch around the tomato plants will also help.

Blossom end rot is sometimes caused by a lime deficiency in the soil. A soil test can determine whether the soil needs more lime.

Don't get discouraged if your first tomatoes are spoiled by blossom end rot. You can save later fruit by following an adequate feeding and watering program.

Rotary help reaches to all corners of the community

Participants in the Summer Carnival and Pioneer Days at the end of the month may wonder where the funds raised by the Minden Rotary Club at this and other functions, goes. It is a reasonable question to ask, and one that deserves an answer.

One of the most important objects of the Rotary movement around the world is service, service to the community and service to society. This fact is reflected in the many and varied projects which the Minden club has undertaken.

Some of the projects have involved single donations, meeting an emergency or unusual need within the community. In other cases the Minden Rotarians have taken a long term responsibility to provide support for a particular project for many years to come.

In either case, money raised through such events as the summer carnival, is used by the Rotary Club to continue its support of various projects. For this support, the club members are most grateful.

The following projects have received, or continue to receive, the support of the Minden Rotary Club:

-the tennis courts adjacent to the Minden Community Centre were funded through money raised by the club and grants from Wintario. The municipality is now responsible for the operation and maintenance of the facility.

-a life-size "dummy" was purchased for local health officials so others in the medical field and the general public could learn the techniques of cardiopulmonary resuscitation (CPR), a first aid procedure that is used to revive patients whose hearts have stopped beating.

-a resusci-Anne doll, used for the instruction of mouth to mouth resuscitation has also been purchased by the club.

-the club has provided financial assistance to the Minden Red Cross Society's learn-to-swim classes for children.

-a picnic shelter with fire places and tables has been constructed using Rotary Club funds at Rotary Park, adjacent to Highway 35 and the Gull River in Minden. Last

year the cost of constructing a change house at the same park was helped by donations from the Rotary Club.

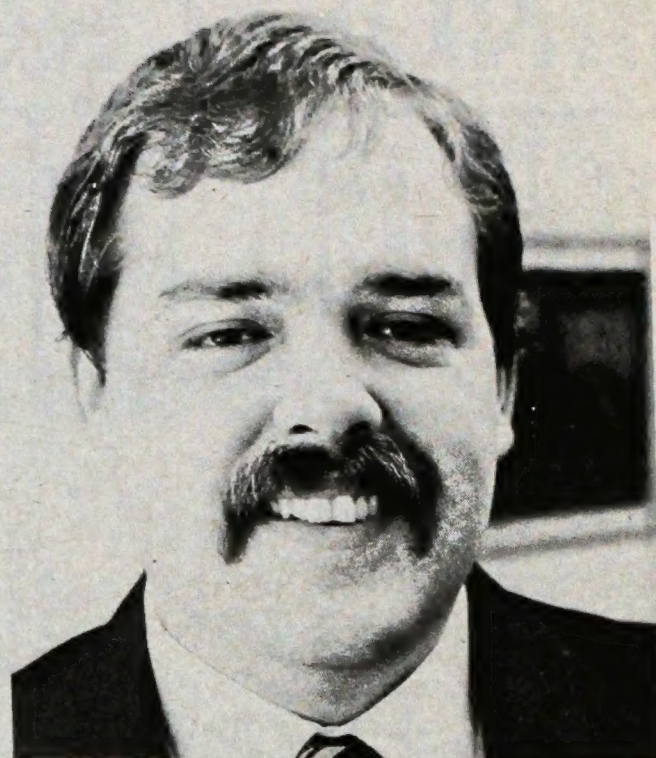

-each year a bursary in the amount of \$200 is provided to a deserving high school student to further his or her education. The selection of the student is done by the teachers at the school.

-the Minden Rotary Club is a major supporter of the Five Counties Children Centre in Peterborough. The centre provides instruction and rehabilitation facilities for crippled children, and special classes for children with learning disabilities. In addition to making direct donations to the centre, the Minden Rotary Club, along with the Haliburton Rotary Club provide funds for a weekly bus service from this area to the centre in Peterborough.

-the Minden and Haliburton Rotary clubs are the organizers of the annual Snowarama for Timmy in Haliburton County. This snowmobile rally, held in conjunction with many others across the province, raises money for the Ontario Society for Crippled Children.

-during the summer months the admission charge at the weekly Bingos held at the community Centre are being donated to the Minden Library Building Fund. Plans are currently underway to have a new library built at the intersection of the Bobcaygeon Road and the street leading to the arena.

-the Minden club has made a \$100 donation to the Haliburton County Big Brothers Association. This organization was formed during the past year and according to the president, the financial

On behalf of the Rotary Club of Minden, I would like to welcome you to our annual Summer Carnival and the Village of Minden.

For the past thirty-three years the members of the Rotary Club of Minden have been involved in fund raising for worthwhile community and international projects.

It is through events, such as the carnival, that funds are raised to support crippled children's work and community recreational facilities.

We are proud of the contributions we have made to our village since 1947 and are very appreciative of your participation in our carnival.

A vacation in the Highlands of Haliburton is unexcelled and we hope that your stay with us is full of enjoyment and fond memories. With your help, we look forward to another successful year of service to our community.

**Stuart C. Brandon,
President,
Rotary Club of Minden.**

and moral support of the Minden club is greatly appreciated.

-each year before Christmas, Anson, Hindon and Minden by-law enforcement officer Dick Schell, who also administers welfare payments for the municipality, is instructed to purchase toys for needy children in the township. The Minden Rotary Club covers the cost of those toys.

-the club has also donated trophies for teams in the Harrison Memorial Hockey Tournament, held each year in Minden, and supports the trees for Canada program of Scouts Canada by offering a trophy as an incentive to the local Scouts.

-an International hockey tournament, which draws teams from Ontario, Quebec and several states in the U.S. is held at the end of each year at the local arena. Sponsored by the Minden Rotary Club the event is held in co-ordina-

tion with the Minden Minor Hockey Association.

-last autumn when a local committee was formed to sponsor a family of 'boat people' from Vietnam, the Minden Rotary Club donated \$1000 to the fund.

-when a tornado ripped through the heart of Oxford County recently, the Minden Rotary Club responded to the plea for help and sent a donation to the Woodstock Disaster Fund.

-one of the more colourful contributions to the community was the painting of the interior walls of the Community Centre. The club paid for the work carried out by local decorator Gino Ziorjen.

That, then, is a brief list of the projects which receive the financial and moral support of the Minden Rotary Club. In addition, the club supports numerous overseas projects in less developed nations through international aid programs organized by Rotary International.

Members of the 1980 Minden Rotary Club Executive include, from the left, vice president Ray Cox, sergeant-at-arms Ron Gambell, treasurer Bill Obee, president Stuart Brandon, secretary Paul Sisson, and directors, Al Mayo, Charles Brandon and Clay Hummel.

Thank you Annes

There is an expression, "behind every successful man there stands a woman," that rings true with members of the Minden Rotary Club.

While the club is an organization for businessmen of the community, their wives are also included in many of the activities. Known as the Rotary-Annes, these ladies form an often unseen and unsung workforce which the club can call on when they undertake projects such as the summer carnival.

With an event as large and diverse as this, the members of the Rotary Club are particularly pleased that their wives are willing volunteers. Club members know that without the assistance of their "Annes" they wouldn't be able to carry out many of the projects they do.

The members of the Minden Rotary Club recognize the contribution of these volunteers and say "Thank You" to their wives and friends for their continued help and support.

Rotary reaches around the world

The Minden Rotary Club is just one of the many such organizations around the world.

While there are clubs in many countries, nothing typified the international scope of the clubs better than the student exchange program which they sponsor.

Under the program, high school students from the Minden area can spend an entire year in a foreign country, attending school, perhaps learning a new language, and gaining a new insight into how people in other parts of the world live.

For every student who is sent overseas by the club, the Minden Rotarians must in turn play host to a student from a foreign country. Members of the club open their homes during the year to provide the foreign student with a family setting in which

to live.

Those participating in the program must be between 16 and 18 years of age and be willing to attend high school when on the exchange.

The Minden club has sponsored three exchange students since the program began. Mary Lou Johnson lived for a year in New Zealand, Erin Gilligan spent her term in Denmark and Lorraine Perry is just completing her year in Belgium. (Readers of The Times have been able to follow the activities of Lorraine through the many letters she sent home. Her family generously permitted this newspaper to reprint these interesting and informative accounts of her adventures in that country.)

The next exchange student sponsored by the Minden Club is preparing to leave

shortly. Lee Potter will be spending a year in Mexico as part of the program.

Jean Paul Despeaux, a student from Belgium who has been spending a year as a guest of the Minden club is expected to return home in early August.

Under the terms of the exchange program, the parents of the student involved must pay the transportation expenses and incidental costs. The host club provides a monthly stipend and accommodation in a home.

Exchanges are organized between clubs in Canada and the following countries: Finland, Denmark, West Germany, France, Holland, South Africa, New Zealand, Australia, Brazil, Argentina, Mexico and the United States.

Students wanting more information about the student exchange program should contact the guidance office at the high school or Minden Rotary Club co-ordinator, Don Hall.

A pot pourri of arts & crafts

The Rotary Club of Minden this year, is expanding its 28th annual summer event to include a quality arts and crafts show and sale. It will be held at the Minden Community Centre, Wednesday, July 30 and Thursday July 31, from noon until 9 p.m. This show will consist of handcrafted items from craftspeople locally and from the

surrounding regions of Ontario. There will be demonstrations and displays in weaving, pottery, wood, glass and several other media. The quality items shown will make attractive gifts or solve that decorating problem. The following list offers brief descriptions of some of the artists who will be participating in the exhibition.

John Rendall Pine Furnishings

John specializes in working with pine. He produces many pine furnishings using Traditional oil Finishes. His "Caron Pine" studio is located in Minden, Ont. His collection includes kitchen and bath accessories for the home and small Canadian furniture.

Alfred & Margit Gatterbauer Stained Glass & Jewellery

Alfred and Margit studied design in Europe several years ago. This talented couple is well known in Canada for their original work. They reside in Kitchener, Ont. and have exhibited their work in many shows throughout the province. They return this year with stained glass windows, lamps, mirrors and unique jewellery designs in gold and silver.

Tom Watkins & Mary Rose Watson's Woolles Sheepskin items

"Sheepskin started for me as a means of paying my way through University in the 60's;

selling mainly to friends and relatives. I put it aside after graduation to try my hand in other things and came back to it full time in 1974. Mary Rose joined me in 1977 adding a certain flair to our designs and an improved quality control.

We design and make sheep-skin mitts, hats, slippers, vests, Woolie bears, etc., using mainly North American and New Zealand sheepskin."

Henny Zaai Weaving & Quilting

Henny weaves traditional and contemporary designs on her loom in Cannington, Ont. Her woven items are both functional and decorative. She also makes hand and machine stitched quilted articles. Henny will provide weaving demonstrations on her loom during the show.

Jerry Monroe Acrylics

Jerry works with acrylic sheets and resins to produce unique handcrafted gift items. All of his products are individually hand cut, sanded

and buffed. He employs lamination techniques in his work capturing the beauty of light as it passes through a variety of coloured acrylic layers. His contemporary designs are made to fit every decor.

Van Dyk Copper Copper & Brass items

Copper and brass glow with life and warmth in Peter Sjouwerman's studio in Caledon East, a small rural town north of Toronto. Van Dyk Copper produces ornamental containers such as syrup cans 40 inches high, coal scuttles, spittoons, planters and milk pails.

Peter started working with copper when he was 16 in Holland. He became a professional coppersmith after 5 years of vigorous training as an apprentice. He has been an established coppersmith in Canada for over 20 years and is now recognized as an authority in his field. Van Dyk Copper is now a family affair. Peter, his wife Grace and nephew Frank work together to produce an impressive array of products. Each item is carefully designed to meet both functional and aesthetic needs.

Trillium Pottery Salt-Glazed Stoneware

Stuart Thompson graduated from the Ontario College of Art in 1970. Since then, he has been experimenting with many different techniques.

"I moved to the country 4 years ago and began re-discovering the folk pottery of Canada; particularly salt-glazed stoneware. I am most

interested in form and texture relative to a function, and the natural colours of clay and stone when interacting with the fire and salt. I have tried to eliminate from my work what I consider to be slick and arty effects, and replace them with some of the simple, unconscious craftsmanship of pioneer folk potters. Using a range of different techniques I am able to reflect my personal feelings about what pottery should be."

Jonathon Laine Mandala Designs

Jonathon has his shop in Lindsay and combines the clarity of acrylic with the beauty of tropical plants with his handmade terrariums. In addition, he makes many other decorative and functional pieces such as beautiful serving trays made from fine woods. In the past, he has shown his work at several large shows including the Canadian Craft Show, in Toronto.

W. Burnell B & W Crafts

Mr. Burnell lives in Orangeville and specializes in stained glass art. His effective techniques and attention to detail yield several pieces perfect for your home or for gifts. In the past, he has done shows like the Guelph Multi-Cultural Festival, Mississauga Artfest, and the Streetsville Bread & Honey Festival.

Jeffrey Gibb Trillium Woodworking

Jeffrey produces attractive pine home accessories from his shop in New Hamburg. He will be displaying coat racks, shelves, mirrors and planters, all well-detailed and lacquer-finished. His show tour includes Fair November (University of Guelph), Festival of Friends, and the London City Craft Show.

Bob Harrington, Jeff Van Dyke Ent Works

Bob and Jeff turn out fine quality items in wood turning. Their expertise in lathe work will be a joy to own. Such items as candlesticks and lanterns make attractive gifts. They have shown at the Canadian Craft Show for 3 years and also shows in Elmira. Their shop is in Glen Williams.

Michael Gorin Haitillandsia Inc.

Michael comes from Water-down, Ont., to bring us a most unusual craft - Air Plants. These exotic plants do not have roots and live strictly by frequent mistings. These attractive varied plants are grafted to unusual pieces of wood. He has shown for several years at the Canadian National Exhibition.

Jamie Turnbull Whiteduck Pottery

Jamie has his studio in Combermere, Ont. His fine use of soft earth tones blend neatly in good gift items like vases, teapots, plates and pitchers. He has shown in several shows including the Canadian Craft Show in Toronto.

Ken Hoeght Earth Park Pottery

Ken operates from Baysville and has shown across the province, including the London Craft Show, and many others. Just one example of his functional and attractive work is his fine oil lamp. We are fortunate to have been able to choose from the best potters for our show, and we certainly have selected a good representation of the high quality available, right here in Ontario.

Manivalde Aesma

Manivalde produces fine wood products made in the fine Estonian tradition - by a method related to barrel-making. He produces buckets, planters, mirrors and furniture, all in this unusual fashion. His shop is listed in the new "Ontario-yours to discover" brochures and his wide listing of shows is a tribute to the unique method of woodworking he employs.

Pam Bailey-Roblin Bailey-Roblin Pottery

Pam is well-known for her quality pottery in the Stirling area. Her functional pieces include serving bowls, dishes, mugs, and several unique items. When you see her craft, look for co-ordinated pieces in beautiful harmonizing shades.

On behalf of the Townships of Anson, Hindon and Minden, I would like to take this opportunity to welcome all visitors to our Community. Our object is to make your stay in our area a pleasant and rewarding experience. In particular we hope you have a safe and enjoyable vacation.

We are proud of our community and hope you share the same enthusiasm by participating in local activities and supporting local merchants.

To the Rotary Club of Minden I want to express our sincere appreciation for their involvement in community service work. Without their financial assistance and that of other community minded groups, many of the services presently enjoyed in the area would be lacking.

In support of the Rotary Festival I recommend this activity to you as a memorable way to spend part of your vacation. Have a good time and return again soon.

S. G. Nesbitt, Reeve,

Anson, Hindon & Minden.

PIONEER DAYS

ROTARY BINGO

NOTICE OF CHANGE

The regular scheduled Thursday Night Bingo will be changed to Tuesday July 29 beginning at 7:45 p.m.

This change is necessary to accommodate the Annual Rotary Carnival.
Plan to attend.

Join the bingo crowd Thursday

"BINGO!"

The shout rings across the hall as heads turn to see who has scooped up the latest cash prize in another game of bingo at the Minden Community Centre. For many people it is an entertaining evening out, a chance to meet friends and to challenge the law of averages.

The Minden Rotary Club is pleased to be able to provide that opportunity. Not only

does the club feel it is supplying a form of recreation for the residents of Minden and area, but the money raised during the Thursday night games is used to support community service work throughout the community.

The Minden Rotary Club has been calling the numbers for weekly bingo since early 1960. When the community centre portion of the Minden

Five Counties Children's Centre

The Five Counties Children's Centre was established in Peterborough to assist children under the age of nineteen years whose restriction of activity, by reason of neurological, musculo-skeletal, or other non-acute organic defect, produces a physical handicap and who are referred by a qualified medical practitioner.

Treatment is provided by way of physiotherapy occupational therapy, speech therapy and other diagnostic screening procedures related to such physically handicapped children.

This facility services the handicapped children of Haliburton County plus the counties of Victoria, Northumberland, Peterborough and north Hastings.

Your Rotary Club regularly makes financial contributions to this Centre. This is just one of Rotary's major projects.

This year receipts from our Snowarama supported the Centre in the amount of \$17,800. Other financial assistance is provided as funds are available.

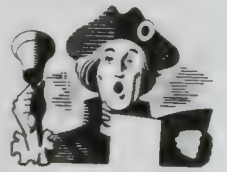

Minden and Haliburton Rotary Clubs provide representation to the County by having active Rotarians serve on the Board of Directors. Your support of Rotary activities allows us to serve the County by our continual support to this necessary Children's Centre.

More than just fund raising

Raising money for the many projects the Rotary Club of Minden supports is no easy task, but that is not to say the members of the organization don't enjoy themselves.

An important part of the Rotary tradition is service to the community, and while the funds raised at various events sponsored by the club may be the most visible contribution, often the activities themselves provide a service as well.

For example, the summer carnival and pioneer days has become a focal point for fun in the Haliburton Highlands each July. Seasonal and permanent residents alike look forward to the opportunity for some light-hearted entertainment. A midway and monster parade keeps the children's eyes alight, while other activities and a dance entertain the adults.

This year the addition of the crafts show and exhibition is sure to add a great deal more to the fun of the two day event.

The key word is fun, people

enjoying themselves, taking part in the events, many of which are free. And, for the activities for which there is a charge, those paying can be assured that all the profits are destined for Rotary community projects.

While the summer carnival is the highlight of the fund raising year for the Rotarians, there are many other events that help the club with its work. The weekly BINGO games at the Minden Community Centre are not only a source of revenue for the club, but also offer an enjoyable evening out for the participants.

S-t-r-e-t-c-h-i-n-g those dollars

The funds raised by the Minden Rotary Club from the summer carnival and other events held during the year are used to support community service projects.

The club also sponsors the New Year's Eve dance at the Community Centre and an Octoberfest celebration during the Thanksgiving week-end.

Throughout all these activities the Rotary Club members volunteer their time and expertise to ensure the events come off as smoothly as possible. But just because you see a member of Team Rotary "working", doesn't mean he isn't having fun. The club members are aware of the important contribution the general public is making to their fund raising efforts and they appreciate the assistance. They enjoy providing an opportunity for others in the community to have fun.

Besides, haven't you always wanted to be the person who spins the Crown and Anchor Wheel?

Those members of the club whose responsibility it is to administer the funds do so with care in an effort to ensure they get maximum value for the money spent.

In many cases this involves using government grants that are available for community projects. For example, the Minden Rotary Club has taken advantage of grants offered through the Wintario Lottery Corporation for community projects. In most cases Wintario provides funding on a matching basis, for example a grant of one dollar for every dollar raised by the club.

By using the funds available through Wintario, the Minden Rotary Club is ensuring that the money received from the public through various projects is put to maximum use.

The club has also taken advantage of employment schemes offered by the federal government. Under these programs students have been hired to build a picnic shelter and change buildings at Rotary Park, and this summer three students are being employed in construction of an adventure playground beside the municipal offices.

In taking advantage of the employment grant, the club is creating summer jobs for students and providing a service to the community.

A quiet place in Minden

As the name implies, the Minden Rotary Club has had a great deal to do with the creation of Rotary Park in Minden.

Situated on the Gull River in a tranquil location, the park offers visitors and residents an opportunity for quiet recreation while, at the same time, only being a few minutes from downtown.

The park has a beach on the Gull River where the current is swift. A lagoon set off from the main river and slowly sloping sandy area provides an ideal location for children to enjoy the water.

Fishermen will also enjoy Rotary Park. In a number of locations the bank drops off sharply, which means that deep water and the big fish are within casting distance of

the shore.

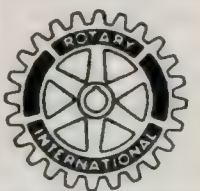

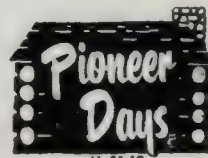

One of the latest additions to the park is a covered picnic shelter with stone fireplaces and tables. The roof means your plans won't be totally ruined if the weather does not co-operate.

A change house was also built at the park.

Both these recent projects were built by the Minden Rotary Club with the help of the federal government's summer work project for youths.

So if you are looking for a place to escape from the hustle and bustle for a few minutes or an entire day, why not try Rotary Park?

The entrance to Rotary Park is located just south of Austin's ESSO on highway 35.

County may hire consultant in battle to save CNR line

County officials are investigating the possibility of hiring a consultant to assist in presenting Haliburton's case for the retention of the CNR rail line between Lindsay and Haliburton Village. The Canadian Transportation Commission has set a date in early September for a hearing into an application by CNR to abandon the line.

According to Dysart Reeve Murray Fearry, the consultant will help refute figures which the CNR has used in preparing its case for the abandonment application. Fearry said the person hired could be a lawyer or a consultant, but that it would

be someone familiar with the CTC procedures and someone who can question the assumptions being presented by the CNR.

According to the Dysart Reeve, a polling of reeves throughout the county has indicated that all municipalities in Haliburton would be willing to support the hiring of such a person. "Dysart is willing to add its share," Fearry commented, "we have the most to lose if the line is lost."

Fearry, who along with Snowdon Reeve Bob Vick form the county's railway committee, is considering a number of possibilities at the

moment although no firm decision on hiring one individual or firm has been taken.

"At this point we are unsure of how much it is going to cost us," Fearry said.

At the Thursday evening of Lutterworth Township council, Reeve Ron Gambell told the councillors the county was planning to spend up to \$10,000 on a consultant. The council agreed to support the

idea and it was estimated that their share of the expenses would be just less than \$300.00.

"I don't know where he got the \$10,000 figure," Fearry commented when asked if that was how much the county intended to spend. He said that a number of amounts had been "tossed around" but no definite decision had been taken.

Lutterworth will wait on hall

Plans for building a recreation hall in Lutterworth Township has been set on the back burner by the municipality's council. The decision (not to decide) was taken at the July 17 meeting.

The councillors heard a report that the capital grants program funded by the Wintario Lottery, is still frozen and that no new applications are being accepted. In addition the councillors were told that a feasibility study will have to be carried out before any Wintario funds would be forthcoming.

Estimates for such a study range upward to \$10,000.

Clerk-treasurer Wayne Hughes told the meeting that he had received a great deal of information from Wintario and that he would review the material.

Earlier this year the councillors were considering the construction of such a recreation hall adjacent to the present municipal office. A second plan suggested that a second floor could be added to the present township office to serve as a recreation centre.

Councillor Al Stott seemed to sum up the feelings of the other councillors when he suggested, "Let's put it off until after the municipal elections."

STANHOPE NOTES

by A. F. Stevenson

A special meeting of Stanhope Township Council was held on July 17, to discuss the proposed procedure for the sale of the 66 foot shore line allowances, as presented by the township solicitor.

Those present, beside the members of Council, included four members of the interested citizen class, and one representative of the press. The solicitor outlined the procedure which was the most likely to be acceptable to the Ministry of Housing. Another ministry which has to be dealt with is a federal one which has to do with, of all things in the lakes, wharfage.

This latter consideration is likely to have little effect other than to consume time and effort in the whole procedure.

Under the procedure outlined by the township solicitor (and it is likely to apply to all townships in the County of Haliburton) it calls for the establishment of a committee to consider the initial applications for the transfer and closing of a lakeshore right of way. Applicants would be required to make their application, accompanied by a drawing showing the relationship to the abutting property, information with regard to the property location and the deed, plus the registry or instrument number of the property in question.

If the committee is satisfied that the applicant is an owner of property abutting on the shoreline allowance then the applicant will be advised to proceed with the matter, and will be required to submit a sum covering the cost of the property to be transferred plus administration costs and also legal fees.

They will also be advised that a survey will be necessary, and that this must be proceeded with before any further action can be taken on the transfer. The procedure looks reasonably simple but as may be expected in this type of undertaking, it will be time consuming but productive of the results desired by so many shoreline residents.

One thing seems to be certain, and that is that there will be a tremendous amount of administrative work in connection with the transfer of titles to the owners of the abutting property. Costs will have to be met otherwise the whole operation will have to be subsidized by the taxpayer, rather an unthinkable event at the best.

Following the meeting the Reeve of the township invited the public to submit any questions to the floor for further clarification. Few questions were asked and assurances were given that once the procedure was approved a form would be published informing interested people of the details and the procedure to be followed, and these would be available to the public.

Rumour has it that Councilman Roger Woods may not be a candidate for the Stanhope Council in the November 1980 election. It is our hope that there is little substance to the rumour as our opinion is that Councillor Woods has been a very valuable member of the

present Council.

The various committees he has sat on have been stronger for his presence and his ability to deal with problems as they come up.

In our opinion, another term on council would provide the experience needed to make Councillor Woods a sure fire candidate for higher office in a succeeding election.

SENIOR LEAGUE

by Linda English

There has been a lot of activity at Hyland Crest this week. On Monday morning we began with fun and fitness. Later in the afternoon the ladies went to the craft room to finish their projects in preparation for the Bazaar. After supper several residents went to the auditorium to watch the movies.

"The Living River" showed us how life is reproduced in the river bottom. The vegetation keeps hundreds of species of fish alive. We saw also how the river is destroyed by chemicals from factories. This was a very interesting film. "House the Wasp Built" told the story of how paper was developed in 1440 by the Chinese people. The idea of paper was taken from the wasp nest. "You and Your Eyes" told us how we should care for our eyes. Sight is the most delicate of all seven senses.

Rev. Douglas Miller of Minden United Church held service in the Chapel on Tuesday morning. Ray Jenkins was here to play the organ while we sang some inspiring hymns.

Later in the afternoon, there was a Bingo game in the main lounge. There were many lucky winners of tokens which can be cashed in at the Tuck Shop.

The women of the Catholic Church in Minden brought a tasty variety of squares, tea breads and cheese for the Thursday tea party. Mr. Ray Jenkins was here to visit his mother, and he entertained us on the piano during the tea.

Friends of Mr. Woods would be doing Stanhope Township a service if they prevailed on him to again run for Council.

The upcoming weekend will see Stanhope Fun Days in full swing and workers are reminded that there will be a work bee on Friday July 24. All caring to volunteer their help will be welcome and donations to the bake sale will be very much appreciated.

A good number of citizens have indicated their intention to help and the swim program instructors have taken on the task of assisting with the bonfire and also the Sunday children's day.

One of our residents, namely Mrs. Isabella Avery, sang Danny Boy for us. Our thanks to all these people for making our tea party very enjoyable.

We held our Annual Summer Bazaar on Friday. There was a good display of Craft items on sale, as well as home baking and white elephant articles. Many guests enjoyed delicious strawberry shortcake and home made honey-dipped donuts.

Special attraction of the day was our gypsy, who predicted good fortune to those who visited her. The gypsy was Sandy Pucknell of Gelert Gardens. She worked very hard making the donuts for us in the morning, and donated her time to read fortunes in the afternoon, to help us raise money for the residents council fund. Thank you, Sandy for a job well done.

Congratulations to Mrs. Grace Earle, who was the winner of the afghan and cushion this year. Also, congratulations to Scott McQuillan, for winning the jar of candies by guessing the number. Scott is Mr. Ruppels great grandson. Our sincere thanks to all the auxiliary members and volunteers who volunteered their time, and also to our guests for making the Bazaar a successful event again this year.

The week ended with the Art Show held in the auditorium on Saturday. Everyone who attended remarked about the beauty of the many different pieces of art.

The magic of puppets weaves its spell on these youngsters as they watch the story of Puss and Boots unfold on the stage at Lutterworth Library. The children were watching a performance presented by The Deckhands, in co-operation with area libraries. The show also appeared in Minden.

LET'S ALL GET TOGETHER to discuss THE ACID RAIN PROBLEM in the Muskoka/Haliburton Lakes District

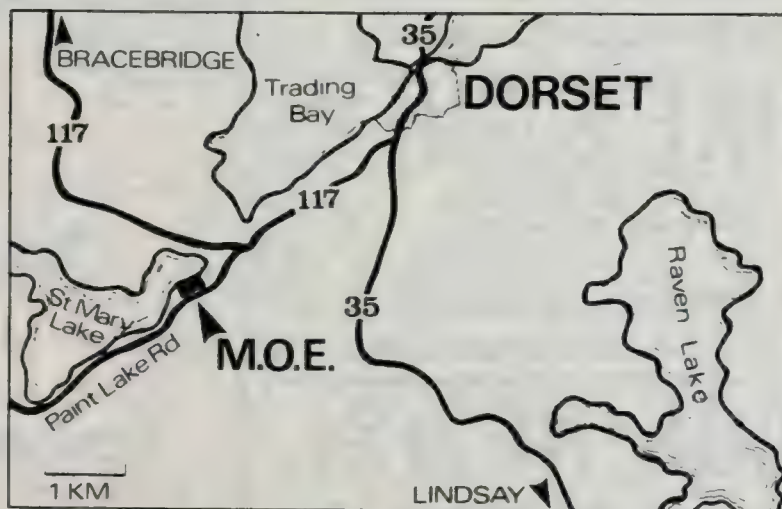

Environment Ontario is staging an Information Exposition at its field laboratory outside Dorset to report on the most recent scientific developments and projections of the acid rain problem which is threatening vacation areas in the Province.

Saturday, July 26, 11 a.m. - 8 p.m.

Sunday, July 27, 12 noon - 8 p.m.

Technical experts, scientists who can explain details in layman's language, sampling and testing equipment, demonstrations and "straight talk" will be the order of this information program.

All permanent and transient residents and cottagers are invited to attend, ask questions and learn first hand about what Environment Ontario is doing to stem and correct the acid rain problem, especially in the Muskoka/Haliburton area.

If you wondered why beaver are trapped, here is one reason. A beaver dam let go on Sunday and as a result Highway 503 near Gooderham is closed as the newly-paved road is washed away. At one time a section of Highway 35 also was taken out in the same way.

Their friends send good wishes to Lewis Stevens at Civic Hospital, Peterborough and to Len Hamilton who is also at a Peterborough Hospital.

Mrs. Jim Miles of Barrie visited with Irene Miles, Kathryn Daniel, and the Eric Coopers and the Chris Miles last week.

Vicki and Roy Rogers of Orillia visited one day last week with Florence (his sister) and Phil Robinson.

Michelle Maher is away presently enjoying three weeks in Europe.

We saw some bicycles with camping gear on them Monday, and these bikers were from American Youth Hostels; they flew to Toronto and have stopped for a short while in our village. Proposed route is through Algonquin Park, Ottawa to Quebec and final stop at Montreal.

Mrs. Andy England and family of Barrie enjoyed a visit with the Phil Robinsons on Saturday.

Pat Welch and daughter Heather and a friend spent the weekend at PineStone and had a tour of the county and a visit at St. Stephen's Church.

Thursday morning there was a crowd of youngsters and some parents enjoying the Deckhands Puppeteers presenting Puss in Boots and Aesops Fables. The Firehall Board Room was ideal and Tessa McWitt, Sylvia Oikle and Bradley Dolcourt all of Kingston held the children's eyes glued to the stage. The showing was through the local library and Lake Ontario Regional System and this group will have done these plays in 83 places during the summer. We hope to have another Puppet Show Thanksgiving Weekend but will keep you informed.

Weekend guests with their mother Mrs. Ern Hewitt were Neil of Carleton Place and Fred of Scarborough; Colin, of Dacre, was also with his mom last week, after being in a firefighting group in Northern Ontario.

We saw the Craig Gartshores of Toronto who were visiting relatives in the village.

We were informed that Miss Margaret Frise, a graduate from Humber College, and formerly of Richmond Hill, is now a licensed Funeral Director with our Gordon Monk Funeral Home.

Marjorie McMinn is presently away visiting relatives at Manchester, England.

The Paul Warburtons of Scarborough are visiting a few days with relatives in the village.

Visitors at the moment with the Bill Porters are Mrs. Joe Madden and family of Bramalea.

Miss Clara Coulter of Peterborough is visiting Mrs. Arnold Coulter this week.

Hi! Nice weather for ducks on Sunday. At least the rain helped fill the kid's pool. The men were sitting around grouching because they can't go fishing even the frogs wouldn't co-operate and get caught.

Cliff and Darlene Bricker from Orangeville are up camping and sight-seeing for a couple of weeks.

Mr. and Mrs. Glen Rhodes and Doug from Dundalk were up camping and visiting Mr. Rhodes' sister over the weekend.

Bill, Wendy and Dawn Lacey from Dundalk are camping in the area for a week.

Clare and Dianne Wright was up visiting his father and mother for the weekend. But their biggest interest was the "River Rat Run", in which they participated.

A group of about 20 people had their annual "River Rat Run". Starting from the Rotary Beach and floating down the Gull River, in oddments of rafts? and inner tubes for their own and to the onlookers enjoyment, to the mouth of Gull Lake. It takes them about an hour or an hour and a half to make the run. Of course they come from all over to join in. One from northern Manitoba, another from northern Ontario, some from Toronto and of course the local boys and girls. Rick Dunsford is the usual instigator of the race.

All of them returned to Mac's cottage on Canning Lake for the evening festivities and a good time was had by all.

Mr. and Mrs. Noetzel are up to their cottage for two weeks vacation. Their daughters are not with them at this time as they have flown to relatives in Switzerland for their vacations.

Mr. Sonny Rhodes is up camping and visiting in the area.

Winner of the afghan and cushion at the Hyland Crest Tea on Friday afternoon was Grace Earle; there was also draw on a jar of candy and winner of that was Steven McQuillen.

Miss Laura Bird of Toronto spent a few days with her parents Mr. and Mrs. Earl Bird and family.

Congratulations go to Mrs. B. Gilbank who is celebrating her 90th birthday this Saturday with an Open House at the home of Jean and Harry

Lines from Lutterworth by Jean Lacey

Mr. and Mrs. Frank Dunsford spent the weekend in Midland at relatives.

Leslie, Emily and Amber Coulter from Kirkfield are up visiting their relatives in this area.

Some of the 'Miles' were up to their cottage on the weekend.

Hint of the Week

How to treat bug bites: Treat insect bites with a poultice of either cornstarch or baking soda, mixed with vinegar, fresh lemon juice, or witch hazel, or apply a pate made of meat tenderizer and water, or rub bites with wet bar of soap to help relieve itching.

The true art of memory is the art of good attention. Bye for now. Take it easy. God bless till next time.

Cowen on Highway 121.

The A.C.W. had a very successful Saturday at their annual Bazaar and the Thrift Shop which was open, as well as the Tea Room in the basement. The lovely quilt top made and donated by Anne Dawson, and finished by the members, was raffled and winner was Douglas V. McIntyre of Brampton. It was

a lovely quilt, wish it had been me!

There will be the Annual Book Sale of discards at Haliburton County Public Library Office next week from July 26 - Aug. 1, 10-4 on week days. Then July 30 the Horticultural Society are asking for plants, flowers and vegetables for their sale on the Bank Lawn in the afternoon. August 2 will be a busy day with the Red Cross Craft and Bazaar Sale for Minden and Lindsay Branches on the Bank Lawn, proceeds for aid international and domestic, from 10-4. That day also, from 10 a.m. is the Gigantic Bake, Rummage and Book Sale at FireHall for Minor Hockey.

Sharon Barclay added to this column and we have had some fine compliments on the new heading, our thanks to you.

She knew how to forget disagreeable things, She kept her nerves well in hand and inflicted them on no one. She mastered the art of saying pleasant things. She made whatever work came to be congenial. She retained her illusions and did not believe all the world was wicked and unkind.

Anon

Nell Anderson is away this week visiting with Mr. and Mrs. Wren Hughes at Harcourt.

Surely is a wet summer, and showery hot and humid for several days now. Drive carefully. Cheerio until next time.

IN MEMORIAM

MISCIO - In loving memory of Petrol Miscio who passed on July 20, 1979. The blow was great, the shock severe. We little thought the end was near. And only those who have lost can tell. The pain of parting without farewell. More of each day we miss you father, Friends may think the wound is healed. But they little know the sorrow That lies within our hearts concealed.

IN MEMORIAM

Always remembered by his son Ron, daughter-in-law Julie and grandsons Larry, Mark and Barry. 7D

MISCIO - In loving memory of a dear brother, Petrol, who passed on one year ago July 20, 1979.

Sadly missed along life's way Quietly remembered every day No longer in my life to share But in my heart, he's always there.

Sadly missed and always remembered, Sister Nell. 7D
